

“ Scan Logic for Elite 3E makes processing invoices a breeze. The software is fully integrated into Elite 3E so the user can continue to work natively! ”

Scott McCarthy, CEO — Founder of SMS IT Group LLC

About Scan Logic

Scan Logic is designed for Elite 3E and integrates directly within your Elite instance. Simply drop the PDF into a folder on your desktop and Scan Logic will process the invoice and load it into 3E's voucher maintenance process. The information is loaded directly in as a complete voucher.

The original invoice appears side-by-side to the scanned invoice for quick and easy review. No additional software required!

Streamline AP

Eliminate the need for your AP Department to manually input invoices. AP simply compares the scanned data to the original invoice and approves.

- ✓ Native 3E Integration
- ✓ Quick Edit in Voucher Import
- ✓ Cloud-Based
- ✓ No Hardware or Software Req.
- ✓ Fully Supported
- ✓ Keeps Process in House

How It Works

Scan Logic is completely cloud-based and does not require any hardware or software installation. We build a complete library of invoice templates to properly scan your invoices with 99.5% accuracy.

Once the invoice templates are setup, AP simply drags and drops a PDF of the invoice or scans a paper copy to a folder and the system automatically grabs the invoice and pulls all the data from the invoice.

The data is then taken and loaded into Voucher Review for AP to quickly compare the original invoice to the scanned data to ensure 100% accuracy. The data is then approved or edited and loaded into Voucher Maintenance as a regular voucher.

Everything can be customized including the data scanned from the invoice to the way the data is loaded into the voucher. Data can be calculated or manipulated via business rules if needed.

The process is simple yet efficient.

Cloud Based for Easy Setup/Maintenance

The system is cloud-based so it's quick and easy to setup, deploy and maintain. All information is encrypted.

No Additional Software or Hardware

Scan Logic uses Elite 3E and does not require the use of any additional software or hardware. You can use your existing scanners and copiers.

No Need for Third Party Staff

Because the review process is quick and simple, your existing AP staff can quickly review the vouchers and focus on other work. Scan Logic completely eliminates the need to manually enter any invoices or data. All data is scanned and automatically loaded into 3E's voucher process.
